COMMUNITY CONSULTATION REPORT

Nico Young Nickel Cobalt Project EL 8698 Young 'Boulders', near Young NSW

NICO YOUNG PTY LTD: Wholly owned subsidiary of Jervois Global Limited

Original Grant Date: 1 March 2018
Expiry Date: 1 March 2024 (renewal pending)
Date of the Report: 13/3/2024
Author: Sanja Van Huet
Exploration Manager
Jervois Global Limited
Suite 2.03, 1-11 Gordon St
Cremorne, 3121
(03) 9583 0498

This report accurately discloses the nature, extent, results and geological interpretation and expenditures of exploration reporting during the current reporting period.

Signed:

Sanja Van Huet
Exploration Manager

Jervois

Executive Summary

During the reporting period face-to-face contact took place between Jervois Global and land holders, March and April 2023; itemised below.

Compliance with Community Consultation Strategy / Plan (sec 2.1.3(a))

Phone conversation and email correspondence kept landholders up to date with Nico Young Project details and proposed exploration dates.

March 2023

Face to face meetings with primary stakeholder M.S. to inspect access.

Full Report

Compliance with Community Consultation Strategy / Plan (sec 2.1.3(a))

Regarding on-going exploration on contiguous tenements EL 5527 and 5571; NICO Young project progress reports were sent by email to all relevant landholders. F2F meetings held with stakeholders in March 2023.

Executive Summary of Objectives (sec 2.1.3(b))

Landholder permission to use their land as an access route to conduct an exploration drilling program on contiguous tenements EL 5527 and 5571 in March 2023 confirmed and approved.

Description of Community Consultation undertaken during reporting period.

a.

March 2023

- Face to face meetings with primary stakeholder M.S. to inspect access routes, and discuss procedures for drilling program to start in March 2023.
- Meeting with K.D. regarding access through his property to site as an alternative route.
- Phone conversation with P.A. to finalise access.
- Inspection of trackways and mitigation for track and crop damage undertaken. Landholders happy with arrangements.

June 2023

- Messages regarding ongoing monitoring of rehabilitation with S.H.

Jervois

- S.H. states no problems to note.

Consultation: as noted above consultations occurred via phone, email and F2F site visit.

b.

Objectives: Keeping landholders informed of Nico Young plans and answering landholder queries. Seeking permission for land access in 2023

Discussion: Main discussion topics raised by landholders were:

- Plans for Property upgrades
- Weather station upgrades
- Potential impacts on property values
- Flooding and rainfall impacts on land, egress issues and compaction of saturated soils
- Next stage exploration by Nico Young, exploration in January 2023
- Land improvement and access improvement

Refer to table below.

Government agencies consulted during reporting period.

Nil.

Table 1. EL 8698 Community Consultation Report (sec 2.1.3(c) to (k))

<p>Identified Community Stakeholders (sec 2.1.3(c))</p> <p>and</p> <p>Community Consultation Events (sec 2.1.3(d))</p>	<p>Attendees: Invitational dinner for interested parties and the Young Development group.</p> <p>Consultation: Email correspondence with R. & M. S. re cost of land and progress of project Face to face meetings with M. S., B. A. and P. A. Phone conversations with B and T A. re the weather station repair and maintenance. Discussion of access damage due to flooding Discussion of mitigation to limit soil compaction</p>
<p>Consultation with Government Agencies (sec 2.1.3 (e))</p>	<p>Nil</p>
<p>Feedback (sec 2.1.3(f))</p>	<p>Discussion items: Land purchase queries Weather station upgrades Potential impacts on property values Next stage exploration by Nico Young planned for 2023.</p>

Jervois

<p>Response to Issues (sec 2.1.3(g))</p>	<p>Responses to issues raised:</p> <ul style="list-style-type: none"> • Land Purchase: Nico Young/Jervois were unable to commit to the purchase of a laterally extensive group of agricultural lots • Discussion of alternative contingencies to allow for soil saturation and increased possibility of degradation and compaction of soils.
	<ul style="list-style-type: none"> • Potential impacts on property values: landowner questioned the value of planned upgrades to their farms in terms of fencing and other infrastructure, and if this would impact Jervois interest in terms of mineral exploration. Jervois advised to continue with upgrades and that any future impacts that may necessitate a review of access negotiation would be undertaken. • Impacts on groundwater with continued exploration (M. S.) • Next stage of exploration: All relevant landholders were sent reports and additional information including ASX Quarterly and Annual reports. • Soil compaction mitigation procedures were put in place
<p>Summation of comments received in relation to exploration activity. (sec 2.1.3(h))</p>	<p>Comments related to exploration and actions taken: Additional ground water work commissioned. Consultation by independent consultants to be sought prior to drilling commencement.</p>
<p>A summary and nature of complaints and actions taken to address them (sec 2.1.3(i))</p>	<p>No complaints received.</p>
<p>Alteration of Exploration Activity (sec 2.1.3(j))</p>	<p>Jervois undertook exploration in March 2023 on contiguous tenements EL 5571 and 5527. Landholders advised of exploration drilling planned for March 2023, and regular follow up during program was undertaken.</p>
<p>Summary of Outcomes of the consultation undertaken (sec 2.1.3(k))</p>	<p>Continued follow up with landholders as developments arise. Consultation on completion of exploration program to assess rehabilitation satisfaction and general operation of the program. All landholders confirmed that program and subsequent rehabilitation was undertaken with professionalism and completed within time and to above standard expectations.</p>

Jervois

<p>Identified Community Stakeholders (sec 2.1.3(c))</p> <p>and</p> <p>Community Consultation Events (sec 2.1.3(d))</p>	<p>Identified Community Stakeholders contacted:</p> <p>M. S. – to discuss exploration 2023</p> <p>B & E. A. - to discuss exploration 2023</p> <p>P. A. - to discuss exploration 2023</p> <p>J. W. – nil consultation</p> <p>R & K S. – phone conversation offering F2F meeting.</p> <p>G C. – nil consultation</p>
<p>Consultation with Government Agencies (sec 2.1.3 (e))</p>	<p>Government agencies consulted during reporting period.</p> <p>Nil.</p>
<p>Feedback (sec 2.1.3(f))</p> <p>Collected during face to face discussion</p>	<p>Concerns over impacts of vehicle access over cropping land on already fragile soils.</p>
<p>Response to Issues (sec 2.1.3(g))</p>	<p>Responses to issues raised:</p> <ul style="list-style-type: none"> • Independent consultants and ongoing land owner consultation prior to, during and post drilling • Upgrades to property by landholders discussed • Ability to continue to use farms for agricultural production. To be assessed based on individual merit. • Rehabilitation of soils
<p>Summation of comments received in relation to exploration activity. (sec 2.1.3(h))</p>	<p>Comments related to exploration and actions taken to address complaints:</p> <p>Adjusted timing of exploration program to fit in with cropping</p> <p>Adjust scope of the proposed program to limit further damage to the properties.</p>
<p>A summary and nature of complaints and actions taken to address them (sec 2.1.3(i))</p>	<p>Nil within the reporting period.</p>
<p>Alteration of Exploration Activity (sec 2.1.3(j))</p>	<p>On analysis no amendments to community engagement consultations are required at the present time.</p>
<p>Summary of Outcomes of the consultation undertaken (sec 2.1.3(k))</p>	<p>Follow up with landholders on Jervois progress with Nico Young project as needed.</p> <p>Follow up post cropping in 2023 to assess possible impacts on crop yield. None expected due to procedures implemented during program.</p>

Jervois

Summary on outcomes of the consultation undertaken (sec2.1.3(l)).

Stakeholder comments and concerns were conducted via phone calls.

Consultation objects were met –

- M S. – access approved
- B & E A. - weather station maintenance and repairs completed
- P A. – access approved
- R & K S. – phone conversation offering F2F meeting. Declined with thanks.

Summary of amendments to the community consultation strategy or activity (sec2.1.3(m)).

No amendments.

Description of the commitments for further consultation (sec2.1.3(n)).

Phone and email contact with relevant stakeholders made in March and April 2023

Face to face meetings in March 2023, on site addressed drilling program and answered questions.

Face to face and phone conversations regarding rehabilitation, program procedures with stake holders. No concerns.
