## Jervois releases 2025 Sustainability Report

---

The **Jervois Group** (“**Jervois**”) advises it has released its 2025 Sustainability Report, outlining the Group’s environmental, social and governance (“ESG”) performance during a year of significant transformation as the Company transitioned to a privately held, United States (“U.S.”) controlled group.

The report highlights Jervois’ continued commitment to responsible, transparent and sustainable practices across its global operations in Finland, Brazil and the U.S..

**Chief Executive Officer Conor Spollen** said the report reflects both resilience and progress during a challenging year:

*“This report affirms that our commitment is as strong as ever towards delivering value and contributing positively to communities, our workforce, host governments and other stakeholders through our responsible, sustainable practices. The wellbeing of our people, communities and the environment remains a core driver of our long-term success.”*

Highlights of the report include:

- Zero work related fatalities across the Group, maintaining Jervois’ zero fatality record
- Significant improvements in water recycling, waste recovery and energy efficiency at Jervois Finland, including recycling water up to 11 times before discharge
- Progress toward future growth with Final Investment Decision achieved for the São Miguel Paulista refinery refurbishment project in Brazil, with ESG systems established to support refurbishment and restart
- Continued safe and compliant management of Idaho Cobalt Operations in Idaho, U.S., during care and maintenance, with a strong focus on workforce support and environmental stewardship.

The Sustainability Report aligns with leading global frameworks and reflects Jervois’ intention to safeguard and build on its reputation as a responsible supplier of cobalt products while expanding into nickel as operations in Brazil progress. The full report is available on the [Jervois website](#).
